

## Paris Hilton Nipple Returns

### Paris Hilton Scrapes Bentley & Slips Us A Nipple

Paris Hilton seemed to be a bit more concerned with the scrape and dents to her BRAND NEW \$200K Bentley then exposing her over exposed nipple yet again. Seems the paparazzi were (as they always are) camped out in her driveway and managed to fire a few off. Ms. Hilton forgot the simple principal that although the FRONT of the cars clears an obstavle that does not meen the rear will also. But despite putting an easy 10K worth of damage into her shiny new Bentley, being FORCED to pull her OLD Bentley out of the shop while repairs are made to this one, exposing her nubbin... she was gracious and very polite to all the media as they descended on her like vultures on a gut-wagon. {moscomment}
